

# Project I - Group 13

> REFER TO THE ASSIGNMENT SHEET OFTEN

## Team Member Information:

Michael Gospodarek

- 262-909-5443
- [mgospoda@purdue.edu](mailto:mgospoda@purdue.edu)
- [mcgo99@gmail.com](mailto:mcgo99@gmail.com) (GitHub account is associated with this one)

Katie Myers

- 219-869-3332
- [myers350@purdue.edu](mailto:myers350@purdue.edu) (both Gitbub and contact email)

Abdur Yaseen

- 313-914-0318
- [ayaseen@purdue.edu](mailto:ayaseen@purdue.edu)
- [abdurryaseen@gmail.com](mailto:abdurryaseen@gmail.com)

Stanley Chen

- 8028291646
- [chen3863@purdue.edu](mailto:chen3863@purdue.edu)

Andrew Bowyer

- (260) 704-7255
- [bowyera@purdue.edu](mailto:bowyera@purdue.edu)
- [ajboywer23@gmail.com](mailto:ajboywer23@gmail.com)

## Fictional Company

Christie and Chris's Cooking Cabin (a company offering products and services amateur cooking activities)

Consistency Aspects:

Founded in: 1999

Products:

- Cookware
  - Pots, pans, utensils, aprons, knives

## GitHub Information:

Page route: <https://mgospoda.github.io/>

Demo: <https://web.ics.purdue.edu/~rshimkus/>

## Office Hours

TA Joey Diesen's office hours

- Thursday, January 27th, 7PM - 9PM
- Thursday, February 3rd, 7PM - 9PM
- Tuesday, February 8th, 7PM - 9PM
- Thursday, February 10th, 7PM - 9PM
- Zoom Link:

<https://purdue-edu.zoom.us/j/91845043021?pwd=K3NVV2psSEd4YVRzSHVGZVY4dDk1UT09>

Demo: <https://web.ics.purdue.edu/~rshimkus/>

## Pages Required and Who is Responsible for Each

1. A company story and history page (this will be a page that generally describes your company and gives a brief history of the company).
  - Stanley Chen
2. A management team page (this is a page that describes the owners and various people that work at the company and should contain more than just a list of the managers and employers)
  - Michael
3. A company products page (this page will describe the various products that your company sells to its customers and should contain more than just a list of the products)
  - Andrew
4. A company services page (this page will describe the various services that your company offers and should contain more than just a list of the services)
  - Abdur
5. A customer testimonials page (this is a page of customer success stories and may also include quotes from your customers)
  - Katie Myers

## Webpage and Frames

In addition to the individual web pages, you will need to work as a group to create the team webpage using frames. It will be hosted in one of your team member's accounts. This **group webpage** should use the html tag "frameset."

There should be a **right frame and a left frame**. The right frame should initially hold a team **home page**. The team home page will consist of **your company name, your team number, and a list of the names of the team members that worked on the project**. The left frame will be a navigation frame that will point to the various pages on your site. When someone clicks on the page name (link) in the left frame, the right frame should show the chosen page. The left frame should remain as a navigation frame. As with the other pages on the site (including the team page), the left navigation frame should show the date that the file was last modified.

## Requirements

- Each of the site's web pages must demonstrate **boldfacing**, underlining, *italics*, at least two font **colors**, at least two different font **SIZES** (excluding headers), and at least two different font **styles** (they may require you to use additional resources).
- Each of the site's web pages must contain at least one [hyperlink](#) (no more than three). At least one hyperlink must link to a relevant site outside of your company site. Links to sites outside of your team member's pages (i.e., outside of your company's pages) should not cause any of your company's website pages to be replaced in the browser window with another entity's page.
- Each page will contain a "**contact me**" link to send email to the person that created the page. If you are uncomfortable having your email address online, use fake email addresses.
- Each page on the site will include at least one **picture**, an **ordered list**, and an **unordered list** (they may require you to use additional resources).
- Each page should include a **file** that can be downloaded that is relevant to the company.
- Each and every page will include the **date** that the page was modified at the bottom of the page. This should be done using code such that the programmer does not have to manually update this entry each time the webpage is updated.

## Formatting

### Fonts:

- Arial (headers)
- Georgia (serif - body text)
- Brush Script MT (cursive - for decorative text)

### Colors:

- Grain #D7CEC7 (for backgrounds)
- Blackboard #565656 (for body text)
- Oxblood #76323F (for headings)
- Tan #C09F80 (for subheaders)
- White (for emphasis)

## Agenda

Next Meeting: Friday Jan 28th @ 6 PM

- Watch tutorials
- Try and start on the page backgrounds. Just basic stuff - Try to change fonts, background colors, etc.
- Aim to do Team Webpage and Frames in next meeting (this counts on each member having a draft of their page)
